SECA Selects Teeter Marketing Services, LLC for Management Services

(Niagara Falls, NY)- The Surface Engineering Coating Association (SECA), a North American association of vacuum thin film coating companies currently based in Cleveland, Ohio has selected Teeter Marketing Services, LLC to manage the Association with Fred Teeter, President of TMS acting as Managing Director of SECA. SECA will now be based at the University of Buffalo Technology Incubator in Amherst, New York.

Teeter Marketing Services was established in early 2002 with an office in the Niagara County IDA Vantage Centre and a second location at the UB Technology Incubator in Amherst, New York to provide industrial market research, business planning, new product introduction, marketing communications, education and training, and product representation for companies in the high performance materials field.
